At What Cost? Tom Kawczynski

Rebecca Tanner is going home. A small town girl who left to chase her dreams in the city, she has a successful career, a happy family, yet there is something still missing. A trip to visit her parents in the small town where she grew up rekindles memories of a life she never fully left behind. Shagbark, a small town nestled in the hills of western Pennsylvania is a place where families have lived for generations and everyone knows one another. Rich in memories and in community, people there have struggled in recent times to make ends meet. Rebecca moves back home to the now abandoned farm once run by her grandmother with three children and a husband of her own. In this place where her fondest childhood memories were made, she hopes her children will connect to the land like she once did and for her family to find happiness. Not without struggle, her family finds a new rhythm to this country life, in the people who make up this small town, the bounty of nature all around them, and in each other. Rebecca's dream seems to be coming closer to reality, but then an opportunity arises which changes everything. Natural gas is discovered in the area. With plentiful Shale creating the opportunity for a local economic boom the likes of which hadn't been seen for decades, the Tanners find themselves caught up in the euphoria of the situation. Everything seems perfect until Rebecca faces an unforeseen and personal consequence of having industry in their own backyard when her daughter becomes sick, changing everything once more. Balancing health risks versus financial benefits, Shagbark begins to tear apart at the seams as neighbors become adversaries, friendships become strained, families become divided, and they all face difficult choices about just what future they want for themselves. The Tanner family is at the heart of these struggles, as these difficulties reveal to them what really matters. Inspired by real personal experiences happening to families and towns throughout western Pennsylvania, this book looks at the impact of natural gas drilling and shows just how much it is changing how these people live. At What Cost is their story, the people of this and every small town who struggle to find the balance between the past that made them, the future they hope for, and an uncertain present where they face important and difficult choices where there is no one right answer.

From reader reviews:

Lavelle Hildreth:

The book At What Cost? can give more knowledge and also the precise product information about everything you want. Exactly why must we leave the best thing like a book At What Cost?? Some of you have a different opinion about guide. But one aim that book can give many details for us. It is absolutely suitable. Right now, try to closer together with your book. Knowledge or information that you take for that, you can give for each other; you are able to share all of these. Book At What Cost? has simple shape but you know: it has great and massive function for you. You can search the enormous world by available and read a publication. So it is very wonderful.

Terry Kopp:

What do you with regards to book? It is not important together with you? Or just adding material when you want something to explain what the ones you have problem? How about your extra time? Or are you busy individual? If you don't have spare time to do others business, it is make one feel bored faster. And you have time? What did you do? Every person has many questions above. The doctor has to answer that question since just their can do which. It said that about reserve. Book is familiar in each person. Yes, it is suitable. Because start from on guardería until university need that At What Cost? to read.

Michael Trejo:

As people who live in the particular modest era should be change about what going on or details even knowledge to make these keep up with the era that is certainly always change and progress. Some of you maybe will update themselves by studying books. It is a good choice for you personally but the problems coming to you is you don't know which you should start with. This At What Cost? is our recommendation to make you keep up with the world. Why, because this book serves what you want and wish in this era.

Sabrina King:

What is your hobby? Have you heard that question when you got learners? We believe that that query was given by teacher to their students. Many kinds of hobby, Everyone has different hobby. So you know that little person like reading or as studying become their hobby. You have to know that reading is very important along with book as to be the matter. Book is important thing to include you knowledge, except your own personal teacher or lecturer. You discover good news or update about something by book. Numerous books that can you go onto be your object. One of them are these claims At What Cost?.
