Remember when people used to die peacefully in their sleep? Maybe you do not remember because it was a long time ago. It rarely happens today. Why? I hope this little book will help to awaken the possibility in us as people, that the way of Modern Protocols and Pharmaceutical dependence are not producing a scenario where "people can die peacefully in their sleep". We must remember how to live in harmony with Nature, and how to honor our flesh and blood that is part of our Great God Self. It is my prayer that as we awaken as Spiritual beings, we will invoke the Miracles necessary to earn our healing, not only from Cancer, but also from "Sin, Disease and Death". Then, my work will have counted.
