I remember these Victorian silhouette illustrations on bold backgrounds from when I was young, and when we found it recently at the library I discovered that it has as much appeal to my four year old today as it did (and still does) to me. The objects the doctor extracts from a young boy's dramatically bloated stomach get progressively more outrageous as they go along, and the story ends with a funny twist. I'm delighted to find this 1966 Berkeley, CA classic available again in print. ( Amazon customer)
