REVISED Edition 2 of "Moon Mars Monuments Madness". With revised text. The view that aliens inhabit our solar system and have left artifacts strewn about our planetary neighbors has spread like wild-fire into every corner of society and government. The alien presence religion is now a global reality and is considered true by more than half the world's population. It intrigues the rich, the poor, the educated and the illiterate as well as politicians and religious people. In the last sixty years it has practically taken over the world, is universal, non-sectarian, indiscriminate and its membership exceeds that of all the religions of the world combined. In fact, most religions allow it to be believed because it is a religious belief itself with not a shred of evidence to back it up. So, what harm is it to believe? Much harm! This mythology ruins any chance for the individual of ever knowing truth. Study along with the facts and learn real science as we liquidate Leonardean legacy, the Steckling stupidty, and the Hoagland heresy of alien artifacts on the moon. This is Volume - 2 of a series exposing and debunking alien artifacts supposedly seen in the orbiter photographs of our solar system.
