## **Red Moon Rising** Peter Moore

Being only half-vampyre in a high school like Danny Gray's makes you a *whole* loser. But Danny manages to escape the worst of the hounding thanks to genetic treatments that mask his werewolf side. So far, he's been able to live the privileged life of a vampyre.

Vamps are society's elite, while wulves like Danny's father are less than second-class citizens. During the full moon they become *inmates*, forced to undergo their Change in dangerous government compounds.

But Danny never had to worry about any of that. Until now. Lately, every time there's a full moon, he's been getting weird symptoms: keen night vision, skull-splitting headaches, and increased strength. Now his new girlfriend, a human named Juliet, is wondering what's wrong with him. She's asking questions questions he can't answer.

If his fears turn out to be true, everything in Danny's life could be destroyed. Is there any way he can get through the next full moon without everyone finding out what he really is?

Set in a paranormal world not too far from our own, Peter Moore crafts an unforgettable coming-of-age story that will raise readers' hackles.
