**Transcending Boundaries in Philosophy and Theology: Reason, Meaning and Experience** Kevin Vanhoozer

Presenting new opportunities in the dialogue between philosophy and theology, this interdisciplinary text addresses the contemporary reshaping of intellectual boundaries. Exploring human experience in a "post-Christian" era, the distinguished contributors bring to bear what have been traditionally seen as theological resources while drawing on contemporary developments in philosophy, both "continental" and "analytic". Set in the context of two complementary narratives "one philosophical concerning secularity, the other theological about the question of God" the authors point to ways of reconfiguring both traditional reason / faith oppositions and those between interpretation / text and language / experience. Contributors: David Brown, Philip Clayton, Chris Firestone, Grace Jantzen, Nicholas Lash, George Pattison, Dan Stiver, Charles Taylor, Kevin Vanhoozer, Graham Ward, Martin Warner.
