The Afterlife Unveiled: What the Dead are Telling Us About Their World Stafford Betty

What happens to us when we die? Many think of heaven as an unimaginable state of bliss. As for hell, it's far out of proportion to any sin we might have committed and makes a travesty of God. But what if the afterlife was something very different? Three decades of research have taught the author, a world expert in the field of death and afterlife studies, where the most reliable sources are to be found. These accounts are far better developed and more plausible than anything found in the world's scriptures or theologies. We hunger for a reliable revelation telling us that life here and now is meaningful and good, that each of us has an important part to play in its proper unfolding, that we are accountable for all we do, and that the spirit-denying materialism all around us is a mistake. The world ahead, unlike ours, is fascinating and fair. Authentic channels through which the "dead" speak are the closest thing to the voice of God that our planet has.
