EU Merger Control: An Economic and Legal Analysis

Ioannis Kokkoris, Howard Shelanski

EU Merger Control: An Economic and Legal Analysis Ioannis Kokkoris, Howard Shelanski

Economic analysis plays a pivotal role in competition enforcement. Integrating an economic perspective on merger control with a legal perspective throughout, this is a comprehensive reference work on merger control in the EU. Each chapter includes an analysis of the economic methods that have been employed in merger cases or that can be employed in merger assessment, such as merger simulation and critical loss analysis.

Whilst focusing on EU practice, the work also highlights key procedures and case law across the member states. A comparison with US procedure is also considered.

Analysing both substantive and procedural law in detail, this is the most comprehensive work on EU merger control and is invaluable for merger assessment.
