When I Grow Up I Want To Be: What Do You Want To Be When You Grow Up? John L. Brown

I republished this book because I felt the images were too small. I made the images bigger and the text bold. I want to thank everyone that has purchased my book. This book is for encouraging children from ages 6 and up, to figure out what they want to be when they grow up, with many great ideas, put together with images. This book is a little different than most illustrated picture books, because the images only pertain to the very last sentence on each page. Kids will love to read this book, and it will give them some encouragement of what they might want to do in life as they grow up. I feel this book is an educational book for encouragement, and a must-read book for a lasting idea of what one wants to be, and will stay with a child until that child decides what they want to do in life when they come of age to start a career. When I was 8 or 9, I saw a book on building your own boat, and that has encouraged me to build many things in my life, and I know it was all because of that one book. I often wondered if I had never seen that book, would I have built so many things in my life. A little encouragement can go a long way, maybe all through your life, no matter how old you are. Please leave a review for this book...
