Exercises and Solutions in Statistical Theory helps students and scientists obtain an in-depth understanding of statistical theory by working on and reviewing solutions to interesting and challenging exercises of practical importance. Unlike similar books, this text incorporates many exercises that apply to real-world settings and provides much more thorough solutions.

The exercises and selected detailed solutions cover from basic probability theory through to the theory of statistical inference. Many of the exercises deal with important, real-life scenarios in areas such as medicine, epidemiology, actuarial science, social science, engineering, physics, chemistry, biology, environmental health, and sports. Several exercises illustrate the utility of study design strategies, sampling from finite populations, maximum likelihood, asymptotic theory, latent class analysis, conditional inference, regression analysis, generalized linear models, Bayesian analysis, and other statistical topics. The book also contains references to published books and articles that offer more information about the statistical concepts.

Designed as a supplement for advanced undergraduate and graduate courses, this text is a valuable source of classroom examples, homework problems, and examination questions. It is also useful for scientists interested in enhancing or refreshing their theoretical statistical skills. The book improves readers' comprehension of the principles of statistical theory and helps them see how the principles can be used in practice. By mastering the theoretical statistical strategies necessary to solve the exercises, readers will be prepared to successfully study even higher-level statistical theory.

From reader reviews:

Deb Valdez:

This Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) are generally reliable for you who want to be described as a successful person, why. The reason of this Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) can be one of several great books you must have will be giving you more than just simple examining food but feed you actually with information that might be will shock your previous knowledge. This book is usually handy, you can bring it everywhere you go and whenever your conditions in the e-book and printed types. Beside that this Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) forcing you to have an enormous of experience like rich vocabulary, giving you trial of critical thinking that we know it useful in your day exercise. So , let's have it and luxuriate in reading.

Tania Hansen:

Playing with family in the park, coming to see the water world or hanging out with buddies is thing that usually you may have done when you have spare time, subsequently why you don't try issue that really opposite from that. One particular activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of information. Even you love Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science), you may enjoy both. It is excellent combination right, you still desire to miss it? What kind of hang-out type is it? Oh seriously its mind hangout fellas. What? Still don't understand it, oh come on its identified as reading friends.

Maria Simmons:

Would you one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Try and pick one book that you just dont know the inside because don't ascertain book by its cover may doesn't work is difficult job because you are afraid that the inside maybe not because fantastic as in the outside look likes. Maybe you answer can be Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) why because the fantastic cover that make you consider regarding the content will not disappoint anyone. The inside or content is actually fantastic as the outside as well as cover. Your reading 6th sense will directly make suggestions to pick up this book.

Nick Gulbranson:

Is it a person who having spare time and then spend it whole day by simply watching television programs or just resting on the bed? Do you need something new? This Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) can be the solution, oh how comes? A book you know. You are so out of date, spending your free time by reading in this fresh era is common not a geek activity. So what these books have than the others?
