Loss Models: From Data to Decisions (Wiley Series in Probability and Statistics) Stuart A. Klugman, Harry H. Panjer, Gordon E. Willmot

An update of one of the most trusted books on constructing and analyzing actuarial models Written by three renowned authorities in the actuarial field, Loss Models , Third Edition upholds the reputation for excellence that has made this book required reading for the Society of Actuaries (SOA) and Casualty Actuarial Society (CAS) qualification examinations. This update serves as a complete presentation of statistical methods for measuring risk and building models to measure loss in real-world events. This book maintains an approach to modeling and forecasting that utilizes tools related to risk theory, loss distributions, and survival models. Random variables, basic distributional quantities, the recursive method, and techniques for classifying and creating distributions are also discussed. Both parametric and non-parametric estimation methods are thoroughly covered along with advice for choosing an appropriate model. Features of the Third Edition include: Extended discussion of risk management and risk measures, including Tail-Value-at-Risk (TVaR) New sections on extreme value distributions and their estimation Inclusion of homogeneous, nonhomogeneous, and mixed Poisson processes Expanded coverage of copula models and their estimation Additional treatment of methods for constructing confidence regions when there is more than one parameter The book continues to distinguish itself by providing over 400 exercises that have appeared on previous SOA and CAS examinations. Intriguing examples from the fields of insurance and business are discussed throughout, and all data sets are available on the book's FTP site, along with programs that assist with conducting loss model analysis. Loss Models, Third Edition is an essential resource for students and aspiring actuaries who are preparing to take the SOA and CAS preliminary examinations. It is also a must-have reference for professional actuaries, graduate students in the actuarial field, and anyone who works with loss and risk models in their everyday work. To explore our additional offerings in actuarial exam preparation visit www.wiley.com/go/actuarialexamprep .

From reader reviews:

Ismael Roop:

Book is actually written, printed, or outlined for everything. You can understand everything you want by a reserve. Book has a different type. We all know that that book is important matter to bring us around the world. Adjacent to that you can your reading skill was fluently. A guide Loss Models: From Data to Decisions (Wiley Series in Probability and Statistics) will make you to be smarter. You can feel a lot more confidence if you can know about every thing. But some of you think that open or reading any book make you bored. It is not necessarily make you fun. Why they could be thought like that? Have you searching for best book or suited book with you?

Thomas Fleischmann:

A lot of people always spent their own free time to vacation as well as go to the outside with them friends and family or their friend. Do you realize? Many a lot of people spent these people free time just watching TV, or maybe playing video games all day long. If you wish to try to find a new activity that is look different you can read a new book. It is really fun in your case. If you enjoy the book which you read you can spent 24 hours a day to reading a e-book. The book Loss Models: From Data to Decisions (Wiley Series in Probability and Statistics) it doesn't matter what good to read. There are a lot of those who recommended this book. These folks were enjoying reading this book. In the event you did not have enough space to create this book you can buy the e-book. You can m0ore simply to read this book out of your smart phone. The price is not to cover but this book offers high quality.

Kimberly Hutton:

Many people spending their time by playing outside using friends, fun activity with family or just watching TV all day long. You can have new activity to enjoy your whole day by studying a book. Ugh, think reading a book can actually hard because you have to take the book everywhere? It okay you can have the e-book, getting everywhere you want in your Cell phone. Like Loss Models: From Data to Decisions (Wiley Series in Probability and Statistics) which is obtaining the e-book version. So , try out this book? Let's notice.

Misty Ware:

You can obtain this Loss Models: From Data to Decisions (Wiley Series in Probability and Statistics) by go to the bookstore or Mall. Merely viewing or reviewing it can to be your solve problem if you get difficulties for your knowledge. Kinds of this reserve are various. Not only by means of written or printed but additionally can you enjoy this book through e-book. In the modern era including now, you just looking by your local mobile phone and searching what your problem. Right now, choose your own ways to get more information about your e-book. It is most important to arrange you to ultimately make your knowledge are still upgrade. Let's try to choose appropriate ways for you.
