The Sleeping Giant: A Novel Dusty Grein

10-year-old psychic twins Danny & Becca Brock must somehow save their family from impending doom...

Mount Rainier had stood like a towering dormant sentinel, watching over the Puget Sound area for millennia. Then, on a clear September morning, something deep inside the heart of the sleeping volcano shifted. For the Brock family, and the millions of residents who lived in the mountain's shadow, life was about to change forever, and the unimaginable was about to occur... the giant was waking up.

This book is a work of fiction, but it takes place in very real locations. More than 3.5 million people live in the metropolitan area along the eastern edge of Puget Sound, in Washington state. They live work and play in the shadow of one of the largest and most dangerous dormant volcanoes in the United States. Mount Rainier, at 14,400 feet above sea level, is the tallest mountain in the state. It is blanketed by no fewer than 26 glaciers, and holds more snow and ice on its slopes than all the other volcanoes in the Cascade Mountain range combined. The distinct shape and majestic beauty of the mountain are visible from almost every point in this heavily populated area. When this sleeping giant erupts, (scientists tell us that it WILL erupt, eventually) it will be one of the largest natural disasters in recorded U.S. history.

From reader reviews:

Lisa Gonzales:

Typically the book The Sleeping Giant: A Novel has a lot of knowledge on it. So when you check out this book you can get a lot of advantage. The book was published by the very famous author. Mcdougal makes some research just before write this book. This book very easy to read you will get the point easily after reading this book.

Kenneth Kelly:

Many people spending their moment by playing outside with friends, fun activity using family or just watching TV 24 hours a day. You can have new activity to pay your whole day by reading through a book. Ugh, ya think reading a book will surely hard because you have to bring the book everywhere? It okay you can have the e-book, delivering everywhere you want in your Cell phone. Like The Sleeping Giant: A Novel which is keeping the e-book version. So , try out this book? Let's observe.

Myra Coronado:

Do you like reading a book? Confuse to looking for your chosen book? Or your book was rare? Why so many query for the book? But virtually any people feel that they enjoy to get reading. Some people likes studying, not only science book but also novel and The Sleeping Giant: A Novel or even others sources were given know-how for you. After you know how the fantastic a book, you feel need to read more and more. Science guide was created for teacher or maybe students especially. Those ebooks are helping them to add their knowledge. In some other case, beside science book, any other book likes The Sleeping Giant: A Novel to make your spare time a lot more colorful. Many types of book like here.

Denise Adams:

As a scholar exactly feel bored to help reading. If their teacher asked them to go to the library as well as to make summary for some publication, they are complained. Just very little students that has reading's spirit or real their interest. They just do what the professor want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that studying is not important, boring and also can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this The Sleeping Giant: A Novel can make you experience more interested to read.
