Winds of Change (Empires Lost Book 2) Charles S Jackson
SEPTEMBER 1942.

As the Wehrmacht solidifies its unassailable hold on Western Europe and stands poised on the brink of total victory in North Africa, members of Thorne's Hindsight team, alone and spread across the globe, work desperately to bring about a generational advance in American and Allied military technology.

For two years, Britain has lain crushed beneath the boot heel of Nazi Occupation. The British government-in-exile battles to control the rest of its crumbling empire as unrest builds in Ulster over broken German promises of reunification with the weak but neutral Republic of Ireland. On the run in Northern England, Richard Kransky falls in with an IRA mission to evacuate to Ireland a man believed to be vital to the Allied war effort... a man whose escape the fanatical Sicherheitsdienst will do anything to prevent.

Struggling with conscience and the voices in his own head, James Brandis hides behind the guise of a church curate in an Australian country town as he watches over the safety of a half-caste, Indigenous girl. Born out of the tragedy of the Stolen Generation, her survival lies entwined with Brandis' agenda for the future. Questions arise over his own existence and true identity however as destiny forces his hand when Brandis is forced to protect her against a violent man with murder on his mind.

In Egypt, the last ragged remnants of the British 8th Army prepare as best they can for a final Wehrmacht assault intended to drive the Allies from North Africa once and for all. Arriving in Suez amid wholesale evacuation and camps flooded with tens of thousands of refugees, Max Thorne and Eileen Donelson intend to field-test prototypes of a new and powerful main battle tank soon to be manufactured by the thousands in the United States.

Reichsmarschall Kurt Reuters, acting on information from spies and fifth-columnists, devises a bold plan to rid himself of Max Thorne and Hindsight once and for all. As the final German assault on Suez begins and the trap is sprung, Thorne and Donelson find themselves forced into a desperate battle for their own survival as they race toward one last, slim chance of escape.
