Bicameralism (Political Economy of Institutions and Decisions)

George Tsebelis, Jeannette Money

Bicameralism (Political Economy of Institutions and Decisions) George Tsebelis, Jeannette Money

This book points out that the interaction between the chambers in bicameral legislatures is central to understanding behavior in each chamber, a point neglected in previous studies. It surveys bicameral institutions from numerous countries and presents models that explain the significance of different institutional arrangements. These hypotheses are illustrated and tested with data from the French Fifth Republic, and supplemented with data from Germany, Japan, Switzerland, the United States, and the European Union.
