A manifesto and guidebook revealing the secrets of the real wizards of history to empower the world changers of today. The author examines the stories of wizards both from legend--Merlyn, Gandalf, The Wizard of Oz, etc.--but also many true wizards from history, including da Vinci, Einstein, Gandhi and more recent examples including Even Ensler, Jeff McBride and Steve Jobs. He concludes that these unusually effective human change agents share certain common traits. Traits that are not taught in our schools, but can be learned by anyone willing to seek the necessary experiences and embrace the essential principles. Our time requires humans willing to embrace the wisdom only available through experience and reflection. We need those willing to take on radical levels of personal responsibility as the shepherds of change. Those who aspire to true, first hand understanding through their own thought processes, who can see the systems within systems that make the world work, and have the courage to truly question everything. These are the true wizards. This book is designed to set readers on the path that can make each of them such a person--The Wizard's Way.
