Garden Helen Chislett, Randle Siddeley

Randle Siddeley Associates is an internationally known and highly successful firm of garden and landscape architects, whose work, both private and corporate is to be found all over the world. He is a founding member of Sustain, an organization designed to incite and propel global developers to be mindful of their impact on the environment and to commit to enriching local communities. Focusing on gardens this book will both outline the principles adapted in devising and planning solutions, and then discuss and illustrate a series of specific examples, mainly in the UK but also in Russia and the Middle East. Expensive, elegant and fairly formal, these are luxury gardens for the wealthy client, but the lessons and the principles are universally applicable. Projects include Chelsea Harbour and Wembley Stadium amongst many others.
