Advances in Database Technology - EDBT 2002: 8th International Conference on Extending Database Technology, Prague, Czech Republic, March 25-27, Proceedings (Lecture Notes in Computer Science)

The Eighth International Conference on Extending Database Technology, EDBT 2002, was held in Prague, Czech Republic, March 25–27, 2002. It marks the 50th anniversary of Charles University's Faculty of Mathematics and Physics and is the most recent in a series of conferences dedicated to the dissemination and exchange of the latest advances in data management. Previous conferences occurred in Konstanz, Valencia, Avignon, Cambridge, Vienna, and Venice. The topical theme of this year's conference is Data Management in the New Millennium, which encourages the community to see beyond the management of massive databases by conventional database management systems and to extend database technology to support new services and application areas. The intention is to spur greater interest in more integrated solutions to user problems, which often implies the consideration of data management issues in entire information systems infrastructures. There is data (almost) everywhere, and data access is needed (almost) always and everywhere. New technologies, services, and applications that involve the broader notion of data management are emerging more rapidly than ever, and the database community has much to offer. The call for papers attracted numerous submissions, including 207 research papers, which is a new record for EDBT. The program committee selected 36 research papers, 6 industrial and applications papers, 13 software demos, and 6 tutorials for presentation at the conference. In addition, the conference program includes three keynote speeches, by Jari Ahola, Ian Horrocks, and Hans-Jörg Schek, and a panel.

From reader reviews:

Andrew Sessions:

Book is to be different for each and every grade. Book for children until adult are different content. To be sure that book is very important for people. The book Advances in Database Technology - EDBT 2002: 8th International Conference on Extending Database Technology, Prague, Czech Republic, March 25-27, Proceedings (Lecture Notes in Computer Science) has been making you to know about other understanding and of course you can take more information. It is quite advantages for you. The reserve Advances in Database Technology - EDBT 2002: 8th International Conference on Extending Database Technology, Prague, Czech Republic, March 25-27, Proceedings (Lecture Notes in Computer Science) is not only giving you far more new information but also for being your friend when you experience bored. You can spend your own personal spend time to read your guide. Try to make relationship with the book Advances in Database Technology - EDBT 2002: 8th International Conference on Extending Database Technology, Prague, Czech Republic, March 25-27, Proceedings (Lecture Notes in Computer Science). You never experience lose out for everything if you read some books.

Mark Armstrong:

The actual book Advances in Database Technology - EDBT 2002: 8th International Conference on Extending Database Technology, Prague, Czech Republic, March 25-27, Proceedings (Lecture Notes in Computer Science) has a lot of information on it. So when you read this book you can get a lot of profit. The book was published by the very famous author. This articles author makes some research prior to write this book. This particular book very easy to read you will get the point easily after perusing this book.

Kina Chatman:

Advances in Database Technology - EDBT 2002: 8th International Conference on Extending Database Technology, Prague, Czech Republic, March 25-27, Proceedings (Lecture Notes in Computer Science) can be one of your beginning books that are good idea. We all recommend that straight away because this reserve has good vocabulary that could increase your knowledge in terminology, easy to understand, bit entertaining but nevertheless delivering the information. The article author giving his/her effort that will put every word into satisfaction arrangement in writing Advances in Database Technology - EDBT 2002: 8th International Conference on Extending Database Technology, Prague, Czech Republic, March 25-27, Proceedings (Lecture Notes in Computer Science) yet doesn't forget the main place, giving the reader the hottest as well as based confirm resource info that maybe you can be one of it. This great information can certainly drawn you into completely new stage of crucial thinking.

John Cheung:

As we know that book is vital thing to add our knowledge for everything. By a reserve we can know

everything you want. A book is a pair of written, printed, illustrated or perhaps blank sheet. Every year had been exactly added. This publication *Advances in Database Technology - EDBT 2002: 8th International Conference on Extending Database Technology, Prague, Czech Republic, March 25-27, Proceedings (Lecture Notes in Computer Science)* was filled with regards to science. Spend your free time to add your knowledge about your science competence. Some people has various feel when they reading the book. If you know how big benefit of a book, you can experience enjoy to read a e-book. In the modern era like currently, many ways to get book which you wanted.
